

Slough Local Plan development.

Slough has issued a Local Plan review that contains a number of proposals within the SBDC district and involve developments on Green Belt land. These are sufficiently close to Taplow that we should be concerned.

The draft proposals are at:

SBDC has issued criticisms of these proposals. Their full report is at:

and a press release at:

We strongly support the comments made by SBDC as intrusive into the Green Belt and threatening the clear break between Slough and Maidenhead that Taplow Green Belt provides.
